Game playgrounds from **LASERWAR**

LASERWAR is the best laser tag equipment on the Russian market. The company's clients include thousands of successful clubs across the globe. They don't simply buy laser tag rifles and game sets. They build laser tag playgrounds based on our projects.

We help create a profitable laser tag business from scratch. We generate ideas, design and build playgrounds, provide modern equipment and help advertise on the Internet.

With LASERWAR your rental club will become a real city attraction.

TURNKEY PLAYGROUNDS

We create arenas for any budget from scratch.

Features of game playground

The outdoor laser tag is played on equipped playgrounds of Indoor and outdoor types. The variety of shelters and a large territory allow playing many unique scenarios on a single playground.

Outdoor playgrounds can be used for most of the year. The closed ones are suitable for winter and late autumn fights as well as for games in nasty weather. LASERWAR designs both types of polygons.

Any site for outdoor laser tag consists of two obligatory parts.

GAME PLAYGROUND

The main territory of the playground, with a variety of shelters. A realistic laser tag battle is unfolding right here.

ENTRANCE AREA

A place to change players' clothes, provide instructions, store equipment. The size of the entrance area is calculated based on the maximum number of game participants.

What else could be at your playground?

It can be more than just a site for a laser tag. With LASERWAR support, you can create a real playland with entertainment for people of all ages.

Working principles

LASERWAR performs projects of any complexity and for any budget We play laser tag ourselves and know exactly what rental clubs' clients want.

On our side we have advanced technologies , professional designers, years of experience.

ANALYSIS

We analyze all initial data of the future playground: location features and size , target audience of the rental club, customer's wishes

IDEA

We define the theme of the playground. Area zoning , selecting materials and technologies

DESIGN

Here we visualize the idea. We create a design project that takes into account all the information received.

CONSTRUCTION

The playground will be created on the basis of the completed project.

CONCEPT

- ✓ Terms of reference.
- ✓ Style definition, concept, zoning.
- ✓ Planning solution.
- ✓ Sketch 3D visualization.
- ✓ Recommendations on materials and technologies/

DESIGN PROJECT

- ✓ Terms of reference
- ✓ Style definition, concept, zoning.
- ✓ Planning solution.
- ✓ Working documentation on all the parts of the playground.
- ✓ 3-d visualization.
- ✓ Cost sheet of materials.
- ✓ Consultations throughout all construction stages.

The cost depends on the set of selected options and is calculated individually.

Game playground for laser tag and airsoft

RECENT CASES

📍 Russia

📏 5 000 m²

The territory of the playground is divided into three sectors of different styles. Each of them can be used as a separate thematic area or a single game space.

Tactical Military Games Center

RECENT CASES

📍 Russia

📏 2 000 m²

Includes an extensive outdoor playground and a play area in the building. The outdoor playground is covered by shelters in the form of movable houses. There's parking and two rest areas. In the building on the ground floor there is a game maze. The second floor has been additionally created with a zone for laser tag quests.

Complex of game playgrounds for laser tag

RECENT CASES

📍 China

📏 >2 ha

The game area is divided into seven separate sites, which differ from each other by landscape. The shelters are designed taking into account local and natural conditions. Visitors will polish up various skills: tactics, teamwork, precision shooting, the art of camouflage. Playing on such sites is an excellent alternative to traditional sports.

**LASERWAR playgrounds are
successfully operating around the world.**
