

LASER TAG AT HOME || 2022

LASERWAR equipment is the key to your business success

LASERWAR is trusted by laser tag club owners in 76 countries. We have executed more than 25000 orders during the period of 10 years of work on the market. Opening a laser tag club is a huge step. The success of a new business largely depends on the choice of the equipment supplier. When buying expensive equipment, you should be sure that it will not let you down during the first months of work and will provide the club with a constant flow of customers and you - with growing profits.

LASERWAR is trusted by laser tag club owners in 76 countries. We have executed more than 25000 orders during the period of 10 years of work on the market.

Why do laser tag professionals choose Laserwar?

Advanced technology

LASERWAR is the only company on the market with offline, online and real time statistics on different specialized platforms. Each technology comes with unique software. In this way, you get a complete technological solution supporting any kind of laser tag business.

Unique "smart" devices

We offer 36 additional laser tag devices. They will help to implement any scenarios and make the games exciting and realistic. For the sake of new vivid impressions, players will return to your club over and over again.

Best equipment range on the market

At your service - 75 models of weapons, including its the unique devices of the company: AK-12LT Predator and MP9-LT Phoenix. You will be able to choose equipment for players of all ages, genders and levels of training.

Full cycle production

All the equipment - from the manufacturing of printed boards to testing of finished products is made on the company premises by professional employees and passes strict quality control before the final shipment to the client.

Precise optics

Prism and Parallax are the first Russian optical laser tag systems certified in accordance with Russian GOSTs. Their safety is proven and confirmed by regulatory documents. Range tests proved the effectiveness of our optics: the range for snipers is up to 600 meters in cloudy weather. The newest Parallax system has a 25-50% increase in range and a three-fold increase in accuracy compared to Prism. The quality of our optical systems is a great opportunity for your laser tag club.

Security

All components of the game sets are thoroughly tested before they are available for sale: safety tests, tests in various weather and climate conditions. The result of the research was a successful completion of the GOST R, CE certification. You can be sure that the equipment is completely harmless, meets high international standards and will withstand intensive operation.

Universality

Our equipment is compatible with international gaming protocols, including Miles Tag 2. No matter where in the world you come across our taggers, you can use the devices everywhere. This means that regional championships can be brought to the international and even world level.

Why buy Laserwar equipment?

Test drive

LASERWAR gives customers the opportunity to test-drive their equipment. After 14 days of testing our products, you will get a complete overview of the construction, functionality and design of our products. It will save you money.

Upgrade option

The LASERWAR equipment is developed according to the principle of backward compatibility. You won't have to spend a lot of money to upgrade your arsenal. Our customers can upgrade their game sets for little money as part of the upgrade program.

Warranty

We are confident in the performance of the equipment and give a warranty on the product from 12 to 24 months. And at the end of the warranty period, we will always help you with advice on the business management. LASERWAR never leaves its customers alone with the equipment.

Support

We have created an extensive network of service centers. You don't have to spend money sending equipment to us. Repairs and maintenance can be carried out at the nearest service center to your club.

Free software

LASERWAR develops unique software for its equipment. It is installed on a PC or tablet and allows you to set up the necessary parameters of the weapon in a couple of clicks and quickly read the game stats. The LASERWAR 10th generation online configurator allows you to do all that online. It is updated automatically, so you don't have to worry about software updates. We provide the software to our customers absolutely free of charge.

Promotions and discounts

Our principle: a big order - a big discount. For several years we have been offering discounts: "10+2", "15+3", "20+4". A set of promotional materials that can be used in the production of any printed souvenirs is a bonus for any customer. You can pay for the purchase in instalments.

Ready-made sets

LASERWAR offers sets of equipment for owners with a budget of any level for both indoor and outdoor laser tag. Ready-to-use solutions can save you time and money.
